

I am a Latvian orienteerer living in Riga right now. Love orienteering, trail running and hiking, cooking, gardening and being out in nature as much as possible. Orienteering is my passion, my lifestyle, but I'm not a full time athlete. My job is teaching Swedish. Even though combining work and training has not always been easy, WOC in Scotland was my 4th World Championship with Latvian National Team. Here, in Latvia, I compete for orienteering club OK Ozons, which is one of the biggest clubs in Latvia.

This is my second year together with EsSu and I really enjoy being a part of this club. My best achievements in orienteering are 28th position in long distance in WOC 2013 in Vuokatti and 7th position in WOC relay this year in Scotland. That was truly a great feeling coming in to the finish as a last leg runner knowing that we have repeated Latvias best ever position for women team!

My future plans are not very clear right now, because there are so many things in this life that I'd like to do, but I'm sure that I'll continue training and running for EsSu.
